IN-HOUSE FULL-SERVICE LAB & ON-SITE QUALITY CONTROL

Chemical Solvents, Inc., Cleveland, Ohio provides companies with toll manufacturing and custom blending for flammable and other custom blend liquids. CSI has an in-house full-service lab and on-site quality control to provide the highest quality for your most demanding mixing and blending solutions.

FEATURES:

Our Morehouse Cowles ViscoMAX multi-shaft mixer and 10,000 gallon stainless steel storage tanks allow us to produce more blends for increased demand.

CSI specializes in the production of flammable products and is capable of producing a wide range of high viscosity blends from 100 to 1,000,000CPS (centipoises).

CSI can also provide custom blend liquid, cream and gel product formula development for household and specialty market items.

Can be created to fulfill your color, appearance, pH and viscosity specifications.
